Recommended knowledge

Although official certification is not required, it is recommended that students of this subject have an A2 level of English.

Learning outcomes

At the end of the course, the student must be able to prove that he/she has acquired the following learning outcomes:

- R1 The students perform with correctness, fluency and spontaneity that allow them to maintain interaction, being able to react, question or repeat the previous statement to ensure mutual understanding.
- R2 The student understands the overall meaning, essential information, the main points and the most relevant details in clearly structured oral texts using standard language that are articulated at a relatively slow to medium speed and transmitted orally or by technical means, provided that the acoustic conditions are reasonably good or what was heard can be listened to again.
- R3 Students understand the overall meaning, essential information, the main points and the most relevant details in clear, well-organized texts using standard language on general and current topics, related to their own specialty, or topics of special interest to them.
- R4 The students write simple, cohesive texts, be them public or private, on familiar topics or those in which they have a personal interest, which call for or transmit information; stories are narrated; experiences or events (real or imaginary), feelings, reactions, wishes and aspirations are described.

Competencies

Depending on the learning outcomes, the competencies to which the subject contributes are (please score from 1 to 4, being 4 the highest score):

BASIC		Weighting			
		1	2	3	4
CB1	That students have demonstrated possession and understanding of knowledge in an area of study that builds on the foundation of general secondary education, and is usually at a level that, while relying on advanced textbooks, also includes some aspects that involve knowledge from the cutting edge of their field of study.	X			
CB2	That students know how to apply their knowledge to their work or vocation in a professional manner and possess the skills that are usually demonstrated through the development and defense of arguments and problem solving within their area of study.	X			
CB3	That students have the ability to gather and interpret relevant data (usually within their area of study) to make judgments that include a reflection on relevant social, scientific or ethical issues.			X	
CB4	That students can convey information, ideas, problems and solutions to both specialized and non-specialized audiences.			X	
CB5	That students have developed those learning skills necessary to undertake further studies with a high degree of autonomy.	X			
GENERAL		Weighting			
		1	2	3	4
G1	To know the objectives, curricular contents and evaluation criteria of Early Childhood Education.	X			
G2	To promote and facilitate learning in early childhood, from a globalizing and integrating perspective of the different cognitive, emotional, psychomotor and volitional dimensions.	X			
G3	To design and regulate learning spaces in contexts of diversity that address the unique educational needs of students, gender equality, equity and respect for human rights.	X			

G4	To promote coexistence in the classroom and outside it and address the peaceful resolution of conflicts. To know how to systematically observe learning and coexistence contexts and to know how to reflect on them.	X			
G5	To reflect as a group on the acceptance of rules and respect for others. Promote the autonomy and uniqueness of each student as factors in the education of emotions, feelings and values in early childhood.	X			
G6	To know the evolution of language in early childhood, know how to identify possible dysfunctions and ensure their correct evolution. To deal effectively with language learning situations in multicultural and multilingual contexts. Express themselves orally and in writing and master the use of different techniques of expression.	X			
G7	To know the educational implications of information and communication technologies and, in particular, of television in early childhood.				X
G9	To know the organization of early childhood education schools and the diversity of actions that comprise their operation. To recognize that the practice of the teaching function must be improved and adapted to scientific, pedagogical and social changes throughout life.			X	
G10	To act as a counselor for parents in relation to family education in the 0-6 period and to master social skills in dealing and relating with the family of each student and with the families as a whole.	X			
G11	To reflect on classroom practices to innovate and improve teaching. To acquire habits and skills for autonomous and cooperative learning and promote it in students.			X	
G12	To understand the role, possibilities and limits of education in today's society and the fundamental competencies that affect early childhood education schools and their professionals. To know models of quality improvement with application to educational centers.		X		

SPECIFIC	Weighting			
	1	2	3	4
E46		X		

E47	To know the oral tradition and folklore.				X
E50	To cope with language learning situations in multilingual contexts.		X		
E51	To recognize and value the appropriate use of verbal and non-verbal language.	X			

Assessment system for the acquisition of competencies and grading system

Assessed learning outcomes	Granted percentage	Assessment method
R2, R3, R4	70,00%	Written test: Final summative or continuous theoretical and practical test (open questions, objective test questions, truncated exam, etc.). Preparation of fieldwork memorandums. Solution of case studies, single case, etc.
R1, R2, R3	10,00%	Oral presentation of group and individual work.
R1, R2, R3, R4	20,00%	Individual monitoring of attendance at face-to-face sessions and active participation in theoretical and practical classes, seminars and tutorials.

Observations

The final examination will consist of two parts: a written examination and an oral examination.

The oral test will be worth 10 points and consist of an oral presentation by which students will fulfill the requirements of R1, R2, R3.

The written test will be worth 30 points and consists of listening, reading and writing exercises, by which students will fulfill the requirements of R2, R3, R4.

In order to pass the subject, students must pass each of the two assessment blocks (summative assessment and formative assessment). If students fail one of the blocks, they will fail the entire course. The passing grade (a minimum of 5 out of 10) of the summative assessment and formative assessment blocks will be obtained by adding the different points awarded for each of its parts and by working out the average grade when required.

Both formative and summative assessment components will have clearly stated deadlines. In the case of tasks/projects/classroom activities, 1 point will be deducted per calendar day that the work is submitted after the deadline. For the first exam call, any task/project/classroom activity that is submitted late but without justification will only count towards the second exam call. In the case of written tests for the first exam call, if a student is not able to sit the test on the scheduled date without justification, they will be required to take the test in the second exam call.

Major mistakes in oral and written production and/or interaction tasks will result in students failing both assessment and classroom tasks.

Plagiarism will be dealt with according to the regulations of the Faculty of Education.

Official exam dates will not be modified unless an appropriately justified emergency comes up or it has been authorized by the Dean's office.

Students will have the option to repeat a failed assignment from formative assessment if they fail; in

such case, the maximum mark awarded in the repeated task will be a pass (5/10).

Single final assessment: A student who is unable to attend any of the classes will be allowed to take a summative assessment that is worth 100% of the final grade for the subject. In order to qualify for this assessment, the student must ask for authorisation from course professor and supply any relevant documentation within four weeks from the date when the course begins.

In this scenario, the evaluation will consist of the following: a student will have to pass a comprehensive exam composed of various tasks. These tasks will relate to the key topics discussed throughout the course and intend to assess the student's mastery of the subject's learning outcomes.

CRITERIA FOR THE AWARDING OF HONOURS:

In accordance with the regulations governing the assessment and grading of subjects in force at UCV, the distinction of "Matrícula de Honor" (Honours with Distinction) may be awarded to students who have achieved a grade of 9.0 or higher. The number of "Matrículas de Honor" (Honours with Distinction) may not exceed five percent of the students enrolled in the group for the corresponding academic year, unless the number of enrolled students is fewer than 20, in which case a single "Matrícula de Honor" (Honours with 9 Distinction) may be awarded. Exceptionally, these distinctions may be assigned globally across different groups of the same subject. Nevertheless, the total number of distinctions awarded will be the same as if they were assigned by group, but they may be distributed among all students based on a common criterion, regardless of the group to which they belong. The criteria for awarding "Matrícula de Honor" (Honours with Distinction) will be determined according to the guidelines stipulated by the professor responsible for the course, as detailed in the "Observations" section of the evaluation system in the course guide.

Learning activities

The following methodologies will be used so that the students can achieve the learning outcomes of the subject:

- M1 PARTICIPATIVE MASTERCLASS
- M2 CLASSROOM PRACTICES
- M5 WORK AT SEMINARS
- M7 GROUP TUTORING
- M8 INDIVIDUAL TUTORING
- M9 PROJECT-BASED LEARNING

M10 COOPERATIVE AND COLLABORATIVE WORK

IN-CLASS LEARNING ACTIVITIES

	LEARNING OUTCOMES	HOURS	ECTS
Presentation of content by the teacher, analysis of competences, explanation and demonstration of skills, abilities and knowledge in the classroom. M1	R1, R2, R3, R4	20,00	0,80
