### Observations

The WRITTEN TESTS section (60%) will be evaluated by means of multiple-choice tests of each of the topics and a written exam with development questions in which the students will have to demonstrate their knowledge of the topics learned and their reflective capacity.

The NON-FINAL WRITTEN TESTS (20%) will be evaluated by means of cooperative work that will take place in three moments of the course:

Experts in Plans. Each team specializes in one of the regulatory plans required to schools in the current regulations, researches, prepares a paper and presents it to their peers, who will co-evaluate the work. Website. Each team designs an educational center following the guidelines established by the teachers and incorporates all the information in the creation of the center's web page. Improvement Plan. Each team designs an improvement plan for its own school. It will be a prerequisite to pass the subject the passing of the Written Tests and the three cooperative works.

## CRITERIA FOR THE AWARDING OF HONOURS:

In accordance with the regulations governing the assessment and grading of subjects in force at UCV, the distinction of "Matrícula de Honor" (Honours with Distinction) may be awarded to students who have achieved a grade of 9.0 or higher. The number of "Matrículas de Honor" (Honours with Distinction) may not exceed five percent of the students enrolled in the group for the corresponding academic year, unless the number of enrolled students is fewer than 20, in which case a single "Matrícula de Honor" (Honours with 9 Distinction) may be awarded. Exceptionally, these distinctions may be assigned globally across different groups of the same subject. Nevertheless, the total number of distinctions awarded will be the same as if they were assigned by group, but they may be distributed among all students based on a common criterion, regardless of the group to which they belong. The criteria for awarding "Matrícula de Honor" (Honours with Distinction) will be determined according to the guidelines stipulated by the professor responsible for the course, as detailed in the "Observations" section of the evaluation system in the course guide.
